## Customer Support.
"We couldn't be more pleased with Jive! Their call quality is amazing, their customer support is friendly and ALWAYS THERE to help you."
-Seattle, WA

## Standard Features.
"Unlike other carriers, every Jive account came standard with all of the features I needed, like call queuing, music on hold, and voicemail-to-email."
-New York, NY

## Best Hosted PBX.
"We've tried a few different phone services over the years. It is my belief that Jive is the best Hosted IP PBX/VoIP provider around."
-Salt Lake City, UT

## Perfect Fit.
"Jive was so easy to work with. Setup was a breeze and the price was right. Thank you for being the perfect fit for my business!"
-Phoenix, AZ

## Jive gives you total control. Customize your system to fit your business.

Jive's online suite of PBX administrative tools removes the complexity from your system management. Create users, change voicemail boxes, and add ring groups with the simple click of a mouse. All changes to your auto-attendant configuration occur in real-time using our innovative drag-and-drop interface. Jive puts complete control of your telephone system in your hands.
